LH:

RH:

Evidence seen of possible behavioural vices?: no

Blood collected and put into custody by the examining veterinary surgeon?: yes

Blood sample tested for prohibited substances at client's request?: no

Veterinary practice (stamp):

CONCLUSION:

Clinical and radiological acceptable for sport

1. The examining veterinary surgeon and/or veterinary practice shall not be held liable for loss or damage caused as a result of the performance of the examination or as a result of inaccuracies or shortcomings in their preparation of this report, unless it has been established that this loss or damage is due to malice or negligence on the part of the examining veterinary surgeon.
2. The client shall have the sole right to invoke any action due to liability on the part of the examining veterinary surgeon and/or veterinary practice as described under 1 above. Parties other than the client shall not be entitled to derive any rights to compensation for damages arising from this examination/report.
3. Liability shall be limited at all times to that amount covered by the veterinary surgeon's professional indemnity insurance applicable at the time of the examination. Details of this coverage in the form of policy documents for this insurance may be inspected at the veterinary practice premises, and copies of these may be obtained at first request from the veterinary practice at no charge.
4. The provisions printed on this examination report shall also apply in the event the client fails to sign this form, or refuse to accept receipt of this examination report.
5. If the client upon whose instructions the examination was performed is not the owner of the horse, the client is wholly responsible for having obtained the owner's consent to all procedures performed during the examination, and the client shall fully indemnify the veterinary surgeon in respect of any claim by the owner arising from an allegation that such consent was not given.
6. In the event the client and/or third parties are of the opinion that the health of the horse at the time of the present examination does not correspond to that which is stated in the examination report, these parties must report this to the other party without delay and in writing (for example, together with the purchase contract), under penalty of the lapsing of every right of action against the examining veterinarian and/or the veterinarian practice, and to hold this party liable for compensation, while also simultaneously providing a copy of this report to the examination veterinarian and the veterinarian practice.
7. The laws of the Netherlands shall apply exclusively to any disputes arising from the performance of the examination and/or the completion of the examination report, and the Court of the Netherlands shall retain sole jurisdiction to hear these disputes.
8. In the event of differing interpretations between the Dutch and English text of these conditions, the content of the Dutch text shall be decisive.

Thus examined and reported by me:

Drs. Johan Oosterloo

veterinary surgeon in:

Holkerweg 52

3861 PB Nijkerk

This report can relate only to the appearance on the date of examination: 21-10-2025

General and clinical examination

|                         |        |
|-------------------------|--------|
| conformation and stance | normal |
| condition               | normal |
| skin and coat           | normal |
| mucous membranes        | normal |
| lymph nodes             | normal |
| eyes and eyelids        | normal |

Respiratory system

|                            |        |
|----------------------------|--------|
| respiration at rest        | normal |
| type of respiration        | normal |
| spontaneous coughing       | no     |
| larynx sensitivity         | normal |
| respiration after exercise | normal |
| abnormal sounds            | no     |
| laryngoscopy performed     | no     |
| laryngoscopy findings      | normal |

Circulatory system

|                        |        |
|------------------------|--------|
| peripheral circulation | normal |
| heart at rest          | normal |
| heart after exercise   | normal |

Digestive system (ext. insp.)

|                     |        |
|---------------------|--------|
| mouth,teeth, tongue | normal |
|---------------------|--------|

Urogen. system (ext. insp.)

Nervous system

|                     |        |
|---------------------|--------|
| tail tone           | normal |
| correction reflexes | normal |
| coordination        | normal |

Inspection, palpation and eventual percussion

|                 |        |
|-----------------|--------|
| head            | normal |
| neck            | normal |
| withers         | normal |
| back            | normal |
| croup           | normal |
| left frontlimb  | normal |
| right frontlimb | normal |
| left hindlimb   | normal |
| right hindlimb  | normal |

Hooves

|                 |                            |
|-----------------|----------------------------|
| horn quality    | normal                     |
| horn percussion | normal                     |
| hoof shape      | even .... higher than .... |
| shoeing         | front                      |
| type of shoeing | normal                     |

Walk, trot and canter

Walking on hard surface

|                           |        |
|---------------------------|--------|
| straight line             | normal |
| small circle on the left  | normal |
| small circle on the right | normal |

Trotting on hard surface

|                           |        |
|---------------------------|--------|
| straight line             | normal |
| small circle on the left  | normal |
| small circle on the right | normal |

Trotting on soft surface

|                           |        |
|---------------------------|--------|
| small circle on the left  | normal |
| small circle on the right | normal |

Cantering on soft surface

|                           |        |
|---------------------------|--------|
| small circle on the left  | normal |
| small circle on the right | normal |

Flexion tests

|                 |                                |
|-----------------|--------------------------------|
| Forced flexion: | Trotting after 1 min. flexion: |
| LF              | LF                             |
| RF              | RF                             |
| LH              | LH                             |
| RH              | RH                             |

Radiological examination performed: yes

|                   |            |
|-------------------|------------|
| Number of X rays: | 14-05-2025 |
|-------------------|------------|

Assessment of radiographs:

|                |             |
|----------------|-------------|
|                | Grading     |
| Navicular bone | LF 1 / RF 1 |
| Fetlock joint  | LF 1 / RF 1 |
| Sesamoid bones | LF 1 / RF 1 |
| Tarsal joint   | LF 1 / RF 1 |

Fragments

|               |      |
|---------------|------|
| Fetlock joint | LF - |
| Fetlock joint | RF - |
| Stifle joint  | LH - |
| Stifle joint  | RH - |
| Tarsal joint  | LH - |
| Tarsal joint  | RH - |
| Fetlock joint | LH - |
| Fetlock joint | RH - |

Radiological exam of other parts/extra findings:

Back spin proc: in my opinion acceptable for sport

Neck: in my opinion acceptable for sport

Other remarks:
